DETAILED ACTION

Response to Amendment

1. Claims 1-36, 57 and 58 have been previously cancelled; therefore, Claims 37-56 are currently pending in application 09/888,323.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. **Claims 37-56 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.**
4. Independent Claim 37 discloses wherein the *system proprietor* (not the administrator) completes a number of steps (f. collecting information from the system *individual* user, e. providing system access to the individual user, and the remaining steps from a.- i.). However, neither the specification nor the previously claimed subject matter describes the disclosed elements in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Art Unit: 3629

5. Furthermore, Independent Claim 37 (step c) discloses wherein the administrator provides information to the proprietor related to a use selected by the administrator. However, neither the specification nor the previously claimed subject matter describes the disclosed elements in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Response to Arguments

6. Applicant's arguments filed 10/17/2007, regarding Claims 37-56, have been considered but are moot in view of the new ground(s) of rejection.
